HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Provider is dissatisfied with denial of codes 99213-24-57 and 99354.
- Pursuant §9789.16.2. Surgery - Billing Requirements for Global Surgeries:
  - (B) Modifier "-24" reports an unrelated evaluation and management service by same physician during a postoperative period. Services submitted with the "-24" modifier must be sufficiently documented to establish that the visit was unrelated to the surgery.
- Documentation submitted includes a chart note which Provider, under penalty and perjury, clearly states the reason for the visit is not related to surgery. Instructions for hand surgery, Informed consent for hand surgery, and the physician's order for exploratory finger surgery signed by Physician and dated 4/17/15.
- 99213 Counseling and coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs - Provider documents "Face to face: counseling: 50 min" and lists 4 areas of counseling.
- Based on aforementioned guidelines, reimbursement of codes 99213-24-57 and 99354 is not warranted.

The table below describes the pertinent claim line information.
