HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE: Provider seeking remuneration for 00630-QZ-QS Anesthesia Services in the lumbar region, performed on 07/23/2013.**
- The Claims Administrator denied the claim with the following rational: "the allowance is based on the anesthesia services performed by a CRNA not under workers' compensation state fee schedule adjustment"
- Documentation submitted for IBR reflects 00630-QZ-QS.
- **OMFS Title 8, § 9789.18.1 Payment for Anesthesia Services - General Payment Rule**:
    - **(Base + Time) x (CF x GAF)**
    - 8 (**Base**) + 8 (**Time**) = **Total 16**
    - **16** (**Base/Time**) x 32.78 (**CF/GAF**) = **524.48**
- Based on the aforementioned documentation and guidelines, reimbursement is indicated for 00630-QZ-QS.
