OCCUPATIONAL SAFETY AND HEALTH
STANDARDS BOARD

June 3, 07

To Division of Occupational Safety & Health

I submit this proposal today. I have worked for this Co. Imperial Laminators 2620 Coma Ave, So El Monte, Calif 91733 for the past 7 years, All this time the Company has never had a forklift for the purpose of unloading our materials from trucks that make deliveryes to the Co. Unloading 4X8, 4X10 4X12 3/4 to 1 thick partical board is very hard on the back of our body. even more after many years of doing so. I submitted a complaint to the local OSHA office 1906 west Garvey South Suite 200 West Covina, CA 91790 Complaint No 205355043 MR Tilak Gupta, Acting District Manager did not conduct an investigation because the hazard does not fall within jurisdiction. the date was Dec 6, 2006. This does not sound Right at all many people injured their backs because Companys do not have forklift. The Board had their monthly meeting this one being May 17 Glendale City Hall I was there wasn't sure how to go about making my oral proposal. I had submitted a proposal in early March 07. But was told that my proposal could not be found so please can I have a better Result this time.

Thank You

Salvador Monzales
