HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Provider is dissatisfied with denial of codes 99215, 99358 & WC002
- Claims Administrator denied codes indicating on the Explanation of Review “Charge exceeds the fee schedule/maximum allowable or contracted/legislated fee arrangement.”
- As Provider is the primary treating physician, denial of these codes was incorrect by Claims Administrator.
- CPT Code 99358 and CPT Code 99359 are both listed as status code "B" in column D of the Medicare Physician Fee Schedule Relative Value File. Status code "B" means: "Bundled Code. Payment for covered services are always bundled into payment for other services not specified”. Therefore, reimbursement of code 99358 is not warranted.
- Documentation submitted supports CPT 99215 - Office or other outpatient visit for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: A comprehensive history; A comprehensive examination; Medical decision making of high complexity.
- Reimbursement of 99215 and WC002, Spine Follow-Up Progress Report, is warranted.

The table below describes the pertinent claim line information.
