HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Provider is dissatisfied with denial of codes 99214-24 and WC002
- Provider states this injured worker has two injuries, one to his ankle and the other to his shoulder. This injured worker was seen on the same date by two different specialists for his injures.
- EOR submitted shows one physician and was reimbursed. CMS 1500 submitted shows a different Provider name on the claim for a shoulder evaluation and management service with modifier -24.
- Modifier -24: Unrelated Evaluation and Management Service by the same physician during a postoperative period.
- Based on information received and guidelines, reimbursement for 99214-24 and WC002 is warranted.
- A 6% PPO discount is to be applied to reimbursement.
