HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE: Provider seeking $562.50 in additional remuneration for 97799-86 x 21 units, for date of service 03/23/2015 – 03/27/2015.**
- The Claims Administrator reimbursement rational based on "applicable fee schedule."
- OMFS allows for Unlisted Procedure Codes to be reimbursed as "By Report."
- §9789.12.4 (c): In determining the value of a By Report procedure, consideration may be given to the value assigned to a **comparable** procedure or analogous code. The comparable procedure or analogous code should reflect similar amount of resources, such as practice expense, time, complexity, expertise, etc. as required for the procedure performed.
- There is no allowance or comparable code listed under the OMFS for service billed with procedure code 97799 or, more specifically, a Functional Restoration Program; a CPT Code has yet to be formulated for this comprehensive program. As such, a contractual agreement or the OMFS will dictate the level of reimbursement.
- **California State Assembly Bill 1177 amended the Labor Code effective January 1, 2002 to add §5307.11**: 5307.11. A health care provider or health facility licensed pursuant to Section 1250 of the Health and Safety Code, and a contracting agent, employer, or carrier may contract for reimbursement rates different from those in the fee schedule adopted and revised pursuant to Section 5307.1. When a health care provider or health facility licensed pursuant to Section 1250 of the Health and Safety Code, and a contracting agent, employer, or carrier contract for reimbursement rates different from those in the fee schedule, the medical fee schedule for that health care provider or health facility licensed pursuant to

Section 1250 of the Health and Safety Code **shall not apply to the contracted reimbursement rates.** Except as provided in subdivision (b) of Section 5307.1, the official medical fee schedule shall establish maximum reimbursement rates for all medical services for injuries subject to this division provided by a health care provider or health care facility licensed pursuant to Section 1250 of the Health and Safety Code other than those specified in contracts subject to this section.

- Partial one page Contractual Agreement provided for IBR, does not include percentage for Unlisted Code value.
- Partial one page Contractual Agreement provided for IBR reflects "lesser of" language; Workmans' Compensation at 95% OMFS.
- IBR request reflects disputed amount of 95% of Provider's Usual and Customary Fee.
- Opportunity to Dispute Eligibility sent to Claims Administrator on 07/21/2015; response not yet received.
- Based on the aforementioned documentation and guidelines, additional reimbursement is indicated for Unlisted Procedure Code 97799-86.

The table below describes the pertinent claim line information.
