Industry Training Criteria

Pointer Cleaner Caulker (PCC) O*NET 47-2061.00

A Masonry Trades Advisory Committee Report

Presented to the California Apprenticeship Council October 15, 2010

PointerCleanerCaulker.doc

Industry Training Criteria

Pointer Cleaner Caulker

1. Length of Training

- Minimum of three years
- Minimum of 4,200 work hours

2. Related Supplemental Instruction

Pointer Cleaner Caulker (PCC) Apprentices shall satisfactorily complete prescribed courses of related and supplemental instruction which will be no less than 108 hours per year and include the related and supplemental training processes listed on attachment A.

3. On the Job Training

See attachment B.

4. Competency Testing

All apprentices must pass a competency test prior to their advancement to the next pay period. The tests shall be based on their related and supplemental instruction.

5. Apprenticeship Program Completion Percentages

Program sponsors must have a 50% graduation rate for apprentices that satisfactorily progress beyond the probationary period.

6. Green Training

Apprentices will receive training on the evolving green construction movement. They will learn how masonry materials, building design, construction methods and techniques contribute to green construction. Apprentices will be familiarized with the LEED green building certification system.

7. Procedures for Review and Revision of Training Criteria

The Masonry Trades Advisory Committee shall meet at the call of the chair or no less than once each three years to review and revise, if necessary, these industry training criteria. Any and all industry training criteria for pointer cleaner caulkers shall be in accordance with California Code of Regulations, Title 8 Section 212.01.

Attachment A

Related and Supplemental Instruction

Pointer Cleaner Caulker O*NET 47-2061.00

Basic bricklaying fundamentals

Blueprint reading

Building Codes

Caulking

Cleaning masonry

Construction Sequence

Deck Coatings

Epoxy Injection

Green Construction, materials, methods and techniques

Hand tools and equipment, proper use and safety

History of masonry

Illegal discrimination and sexual harassment

Materials, identification, characteristics, and estimating

Mixing mortar

OSHA-10

Patching

Pinning

Read a rule

Rigging

Safety and first aid

Scaffold safety training

Trade math

Tuckpointing

Waterproofing

Attachment B

The major work processes in which apprentices will be trained (although not necessarily in the order listed) and the approximate hours (not necessarily continuous) to be spent on each are as follows:

	Pointer Cleaner Caulker	O*NET 47-2061.00
