Industry Training Criteria

Stone Mason – O*NET 47-2022.00

A Masonry Trades Advisory Committee Report

Presented to the California Apprenticeship Council October 15, 2010

Industry Training Criteria

Stone Masons

1. Length of Training

- Minimum of three years and six months
- Minimum of 4,200 work hours

2. Related Supplemental Instruction

Stone Mason Apprentices shall satisfactorily complete prescribed courses of related and supplemental instruction which will be no less than 132 hours per year and include the related and supplemental training processes listed on attachment A.

3. On the Job Training

See attachment B.

4. Competency Testing

All apprentices must pass a competency test prior to their advancement to the next pay period. The tests shall be based on their related and supplemental instruction.

5. Apprenticeship Program Completion Percentages

Program sponsors must have a 50% graduation rate for apprentices that satisfactorily progress beyond the probationary period.

6. Green Training

Apprentices will receive training on the evolving green construction movement. They will learn how masonry materials, building design, construction methods and techniques contribute to green construction. Apprentices will be familiarized with the LEED green building certification system.

7. Procedures for Review and Revision of Training Criteria

The Masonry Trades Advisory Committee shall meet at the call of the chair or no less than once each three years to review and revise, if necessary, these industry training criteria. Any and all industry training criteria for bricklayers shall be in accordance with California Code of Regulations, Title 8 Section 212.01.

Attachment A

Related and Supplemental Instruction
