Does a PEL exist for the chemical ?

No

Yes

Has there been a substantial change (10x or more reduction by a OEL body – ACGIH, OARS/TERA, AEGH, NIOSH) or significant new hazard?

Yes

Yes

Is the chemical used by employees in CA? (TRI, CERS, SDS providers, CDR review)
Are use and potential for exposure significant? (intermediates)

No

Priority 3:
Re-evaluate when something changes.
