*	If 'Y' is chosen, inquiry must be on case number and you must supply ADJ CASE NBR .						
**	If Legacy Case Number, then it will contain the DWC office code. If EAMS case number, it will be ADJ.						
***	Case sequence is left justified and space only on right of sequence number (no zero fill)						
****	Service Level 'A' is for internal DWC use only. It is a system generated 006 in response to a batch activity.						
	<b>NOTE: Inquires can now be made using either the DWC Legacy Case Number of the EAMS Case Reference #.</b>						
	<b>NOTE: A new service level has been introduced (B). It will be the result of a 006 being created via a batch process whenever a new case opens against an existing SSNWatch record.</b>						
	<b>PURPOSE: Record format required for filing a case inquiry with DWC.</b>
