## Export table contents from report

User can export the table data on the report for each tab/screen by clicking the three dots on the right-hand corner of the data table. Click “Export data”

The screenshot shows a dashboard for the State of California, Department of Industrial Relations. The main heading is "38 - CARPENTERS TRAINING COMMITTEE". A large number "\$230,791.67" is displayed under "AIF-S Funding". Below this is a table with columns: Occupation, O\*Net\_Code, INDUSTRY, Count of AGREEMENT\_ID, Sum of Active Months for Prior Calendar Year, Sum of Completed Apprentices Last Calendar Year, and AIF-S Funding. The table contains one row: CABINETMAKERS AND BENCH CARPENTERS, 51-7011.00, ADVANCED MANUFACTURING, 825, 733, 17, \$230,791.67. A context menu is open over the table, with "Export data" highlighted. The menu options are: Export data, Show as a table, Spotlight, Get insights, Sort descending, Sort ascending, and Sort by. A filters panel is visible on the right side of the dashboard.

A pop-up screen appears for the user. Please select the options as needed.

The screenshot shows the same dashboard as above, but with a pop-up dialog box titled "Which data do you want to export?". The dialog box contains the following text: "Export your data in the format that suits your needs. If you have a lot of data, the number of rows you export might be limited depending on the file type you select. [Learn more about exporting data](#)". There are three options: "Data with current layout" (selected), "Summarized data", and "Underlying data". Below these options is a "File format:" dropdown menu set to "xlsx (Excel 150,000-row max)". At the bottom of the dialog box are "Export" and "Cancel" buttons.

Summarized data can be exported as either excel or csv file. Please select a file format and click submit.
