Source: WCIS database. A significant amount of variation in the number of claims in each market across years results from noncompliance and late reporting of claims. Data are based upon calendar year of injury. DWC believes that its database is representative of claims in California's workers' compensation (WC) industry.

INSURED : Insured businesses of all sizes purchase WC insurance from private carriers and the State Compensation Insurance Fund (SCIF), which is a non-profit government enterprise.

SELF-INSURED : Public and private entities may choose to be self-insured but must be certified by the office of Self Insurance Plans (SIP) in the Department of Industrial Relations (DIR).

STATE OF CALIFORNIA : The State of California is referred to as the "legally uninsured" market as the state assumes the responsibility for WC claims. This market is composed of various state agencies with SCIF serving as the claims administrator.
