SUMMARY OF IMPORTANT NOTICES CONCERNING BURGLAR ALARM AND FIRE ALARM INSTALLATION

Dear Public Officials/Other Interested Parties:

The Department has issued several important notices between June 27, 2002, and October 27, 2015, specifying the prevailing rate of pay for the installation of burglar and fire alarms. The tables on the following two pages provide a summary of the applicable rates of pay for burglar and fire alarm installation by county as of September 23, 2016. The information in these tables summarizes but **does not** alter the applicable rates of pay issued in the aforementioned important notices.

Please note that minimum rate of pay determinations are issued on a “project-by-project basis.” If you have a public works project in one of the counties listed in the tables that indicates “project-by-project basis,” you may request a minimum rate of pay determination prior to the bid advertisement date of the project by sending a written request to the address below. Each request should include all the relevant documents that would assist the Department in issuing a determination. These documents include but are not limited to the contract, financial documents, plans, specifications, as well as contact information for the Awarding Body.

Please refer to the county determinations to find the rates associated with the craft(s)/classification(s) referenced in the tables. The scope of work for each classification is posted on the Internet at <http://www.dir.ca.gov/oprl/DPreWageDetermination.htm>. This information may also be requested from the Office of the Director – Research Unit by calling (415) 703-4774, by faxing a request to (415) 703-4771 or by writing to:

- Notes:**
- ^a Conduit installation is performed at the Inside Wireman rate, and the termination, setting of devices, wiring of control panel and system performance checks are performed at the Comm & System Installer rate.
 - ^b Installation of conduit, boxes, cables, and devices is performed at the Inside Wireman rate, and the final connection and programming is performed at the Comm and System Installer rate.

61-340-7

INSIDE WIREMAN'S AGREEMENT 2014 - 2017

Agreement by and between the Sacramento Electrical Contractors Association Inc. and Local Union No. 340, IBEW.

It shall apply to all firms who sign a Letter of Assent to be bound by the terms of this Agreement.

As used hereinafter in this Agreement, the term SECA shall mean the Sacramento Electrical Contractors Association, Inc. and the term "Union" shall mean Local Union No. 340, IBEW.

The term "Employer" shall mean an individual firm who has been recognized by an assent to this Agreement.

II.7 SCOPE OF WORK

If the Employer performs any of the following work with its own Employees, it shall be performed under the terms and conditions of this Agreement. Installation or erection work, and all electrical maintenance, including the final running test on electrical equipment shall be the work of the Inside Wireman. This shall include the installation and maintenance of temporary electrical lighting, heating and power equipment. Such work includes but is not limited to the following:

Fixtures: includes the installation and/or the connecting of all fixtures, control devices, appliances, motors, motor generators and energy producing devices.

Raceways: raceways or conduit systems shall include all such systems (other than structural) which are designed to carry or contain electrical conductors (power, communications and signal) to be installed or for conductors to be installed in the future.

Supports: includes all such work (other than structural) as welding, burning, brazing, bending, core drilling and shaping of all copper, channel iron, angle iron, eye beams, and brackets, trays and embedded supports, that form a necessary part of the installation and erection of the electrical system.

Solar and energy producing devices such as, but not limited to Electronic: photovoltaic or fuel cells, equipment, electronic devices and light emitting or controlling devices. It is further understood that should any technical development or improvement replace any of the above or related methods or systems, that the substitute system or control system shall be treated the same as the system it replaces, with respect to the installation, maintenance and testing, i.e. floor tape wiring, optic fiber dimmers, energy management systems, micro-volt controls and plastic flex. Any dispute arising from this paragraph shall be processed per Article I.4.
