September 23, 2016

## SUMMARY OF IMPORTANT NOTICES CONCERNING BURGLAR ALARM AND FIRE ALARM INSTALLATION

Dear Public Officials/Other Interested Parties:

The Department has issued several important notices between June 27, 2002, and October 27, 2015, specifying the prevailing rate of pay for the installation of burglar and fire alarms. The tables on the following two pages provide a summary of the applicable rates of pay for burglar and fire alarm installation by county as of September 23, 2016. The information in these tables summarizes but **does not** alter the applicable rates of pay issued in the aforementioned important notices.

Please note that minimum rate of pay determinations are issued on a “project-by-project basis.” If you have a public works project in one of the counties listed in the tables that indicates “project-by-project basis,” you may request a minimum rate of pay determination prior to the bid advertisement date of the project by sending a written request to the address below. Each request should include all the relevant documents that would assist the Department in issuing a determination. These documents include but are not limited to the contract, financial documents, plans, specifications, as well as contact information for the Awarding Body.

Please refer to the county determinations to find the rates associated with the craft(s)/classification(s) referenced in the tables. The scope of work for each classification is posted on the Internet at <http://www.dir.ca.gov/oprl/DPreWageDetermination.htm>. This information may also be requested from the Office of the Director – Research Unit by calling (415) 703-4774, by faxing a request to (415) 703-4771 or by writing to:

California Department of Industrial Relations

## Table 1: Burglar Alarm Installation

COUNTY	CRAFT/CLASSIFICATION
Alameda	Project-by-Project Basis
Alpine	Electrician: Inside Wireman
Amador	Electrician: Inside Wireman
Butte	Electrician: Inside Wireman
Calaveras	Project-by-Project Basis
Colusa	Electrician: Inside Wireman
Contra Costa	Electrician: Comm & System Installer
Del Norte	Electrician: Comm & System Installer
El Dorado	Electrician: Inside Wireman
Fresno	Electrician: Comm & System Installer
Glenn	Electrician: Inside Wireman
Humboldt	Electrician: Comm & System Installer
Imperial	Electrician: Sound and Signal Technician
Inyo	Electrician: Comm & System Installer
Kern	Project-by-Project Basis
Kings	Electrician: Comm & System Installer
Lake	Electrician: Comm & System Installer
Lassen	Electrician: Inside Wireman
Los Angeles	Electrician: Comm & System Installer
Madera	Electrician: Comm & System Installer
Marin	Electrician: Comm & System Installer
Mariposa	Electrician: Inside Wireman
Mendocino	Electrician: Comm & System Installer
Merced	Electrician: Inside Wireman
Modoc	Project-by-Project Basis
Mono	Electrician: Comm & System Installer
Monterey	Electrician: Comm & System Installer <sup>a</sup>
Napa	Project-by-Project Basis
Nevada	Electrician: Inside Wireman
Orange	Electrician: Sound Installer
Placer	Electrician: Inside Wireman
Plumas	Electrician: Inside Wireman
Riverside	Project-by-Project Basis
Sacramento	Electrician: Inside Wireman
San Benito	Electrician: Comm & System Installer <sup>a</sup>
San Bernardino	Electrician: Comm & System Installer
San Diego	Electrician: Sound and Signal Technician
San Francisco	Electrician: Comm & System Installer
San Joaquin	Project-by-Project Basis
San Luis Obispo	Electrician: Inside Wireman
San Mateo	Project-by-Project Basis
Santa Barbara	Electrician: Sound Installer
Santa Clara	Electrician: Comm & System Installer
Santa Cruz	Electrician: Comm & System Installer <sup>a</sup>
Shasta	Electrician: Inside Wireman
Sierra	Electrician: Inside Wireman
Siskiyou	Project-by-Project Basis
Solano	Project-by-Project Basis
Sonoma	Electrician: Comm & System Installer
Stanislaus	Electrician: Inside Wireman
Sutter	Electrician: Inside Wireman
Tehama	Electrician: Inside Wireman
Trinity	Electrician: Inside Wireman
Tulare	Electrician: Comm & System Installer
Tuolumne	Electrician: Inside Wireman
Ventura	Electrician: Comm & System Installer
Yolo	Electrician: Inside Wireman
Yuba	Electrician: Inside Wireman

Notes: <sup>a</sup> Installation of conduit, boxes, cables, and devices is performed at the Inside Wireman rate, and the final connection and programming is performed at the Communication and System Installer rate.

Office of the Director-Research

**SECTION 3.09** Journeyman Wiremen when splicing cable of medium or high voltage, or when using stress cones and shields with all synthetic cables, regardless of voltage when shielded, splicing and connecting thereto will be done at Cable Splicers rate as set forth in this agreement only when splicing.

**SECTION 3.14** Carrying tools or materials to and from the job is considered working. No workman shall carry tools or material outside of working hours except when using Employer's vehicle for Employee's own convenience.

**SECTION 3.15** On any job where workmen are exposed to radioactive materials and/or radiation in excess of one-tenth of the maximum possible limits (MPL), as established by the International Commission on Radiation Protection, the Employer shall employ a qualified Journeyman Radiation Monitor working under the terms of this Agreement.

Such radiation monitors shall determine the location of hazardous zones and shall be responsible for the radiation hazards therein. He shall maintain permanent and accurate time checks on all workmen entering and leaving such zones, including radiation dosages of all personnel emerging from the radiation zone. He shall also be in charge of a decontamination of personnel, their tools, material, or equipment. The radiation monitor shall report to and be subject to the Steward and the supervising electrician on the job. Film badges and test equipment to be supplied by the Employer.

**SECTION 3.16** Workmen employed under the terms of this Agreement shall do all electrical construction and installation of electrical and electronic work and all electrical maintenance thereon. This shall include the setting, processing, welding, cutting, burning, handling, and moving of all electrical materials, electrical equipment, and electrical apparatus, and the making of the final running test and the installation of all underground raceways. This shall also include the installation of all electrical lighting, heating and power equipment, photovoltaic systems, solar systems, fuel cells, all power generating green technology systems, electronic equipment, telemetering equipment, or any other electrical instrumental equipment, with the installation of all related wiring, control wiring, fixtures, instruments, and devices. All conduit shall be cut, threaded, and bent, other than 6" and less nipples and factory 45-degree and 90-degree bends. The drilling, chasing, and channeling necessary to complete electrical installation shall be performed by workmen employed under the terms of this Agreement. After material used in electrical work has reached a job site, it shall from thereon, be handled only by workmen employed under the terms of this Agreement. This shall not preclude the Union from furnishing workmen to other Employers for completion of electrical installation which are not included by the electrical contract.

It shall be understood that the scope of work covered by this Agreement does include the installation of telephone or communication work and the installation of all electronics or instrumentation equipment and related wiring.

**SECTION 3.17** The cutting and threading of all conduit and nipples shall be performed by workmen under the terms of this Agreement.
