CA 94142-0603

February 22, 2010

**NOTICE REGARDING ADVISORY SCOPE OF WORK FOR  
THE SAN DIEGO AND IMPERIAL GLAZIERS'  
GENERAL PREVAILING WAGE DETERMINATION**

The California Labor Code requires the Director of the Department of Industrial Relations to determine the prevailing rate of per diem wages for all workers employed upon public works projects. The Division of Labor Statistics and Research ("DLSR") undertook an investigation in 2009 to determine the prevailing wage rates for the **installation of solar and photovoltaic systems in Los Angeles, San Diego and Imperial Counties**. The results of the questionnaire have been compiled and based on them the minimum rate of pay for the work in question is -- **Electricians: Inside Wiremen** for the Los Angeles, San Diego, and Imperial Counties General Prevailing Wage Determinations.

The type of work listed below, as identified in the 2008-2011 San Diego Glaziers' Memorandum of Agreement and the 2005-2010 San Diego Glaziers Master Labor Agreement by and between Painters and Allied Trades District Council No. 36 and Tower Glass, Inc., were not published or recognized for the **San Diego and Imperial Counties** by the Department of Industrial Relations starting with the **August 22, 2009** issuance of the San Diego and Imperial Glaziers' general determinations, **SDI-2009-2 and IMP-2009-2** and continuing with any subsequent San Diego and Imperial Glaziers' general determinations until superseded by the Director. The rates associated with this unrecognized type of work (solar heat collectors containing glass or glass substitutes) **SHALL NOT** be applied or used on public works projects for the associated type of work.
