

SCOPE OF WORK PROVISIONS

CRAFT/CLASSIFICATION

Field Surveyor: Chief of Party (018.167-010); Instrumentman (018.167-034);
Chainman/Rodman (869.567-010)

ID

63-12-3

LOCALITY

Imperial, Inyo, Kern, Kings, Los Angeles, Mono, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, And Ventura Counties

SCOPE OF WORK

Article 1. Coverage

1. This Agreement shall apply to all field and construction survey work including but not limited to Global Positioning Systems, 3D Scanner (excluding vehicular mobile scanners), Drones, Ground Penetrating Radar, quality control and quality assurance, (as it pertains to field and construction survey work) performed by the Employers in the following Southern California Counties: Imperial, Inyo, Kern, Los Angeles, Mono, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara and Ventura.

2. For the purposes of this Agreement, "field and construction survey work" shall include, but not be limited to:

a. Work which involves the science and art of making all precise measurements to determine the relative position of points through the use or utilization of transits, digital levels, electrotape, Unmanned Aircraft Systems (UAS Drones) and other electronic measuring devices or theodolites, including such work utilizing Global Positioning Systems (GPS) and/or Lidar, to establish a location, an elevation or grade, topography, distances and other measurements.

b. Work performed in support of construction operations, including providing stakes, markers or similar information for the location and/or construction of items such as: survey control, building control including gridline layout, collection of data utilized in topographical mapping and/or determining quantities at the site of construction, preconstruction and post construction, electrical, [REDACTED] communications, foundations and HVAC systems, clearing, slopes, staking (top, toe and intermediate), permanent fencing and boundaries, rough grade, building pad certifications, final/finish grade, [REDACTED] curb, sidewalk and other hardscape surface improvements, subdrains, structures, walls, channels, culverts, in-place or as-constructed measurements, and stakes or measurements for other related items.

c. Work shall include field surveying services that are required to support work that, by specification or contract or state law, is to be performed under the direction of a Licensed Land Surveyor, or Civil Engineer authorized to practice land surveying in California, per Article 3, Sections 8725, 8726 and 8731 of the California Business and Professions Code.

3. In the event that new methods of operation, systems, procedures, equipment, technology, or other changes are developed, introduced or utilized by an Employer or Subcontractor which replace, modify, or add to the work covered by this Agreement, this Agreement shall apply to such new methods and only employees covered by this Agreement shall perform such work.

Laborers Subsurface Imaging Laborer

(Letter received on February 16, 2017 from Southern California District Council of Laborers.) This letter will clarify that the Subsurface Imaging Laborer classification under the Southern California Master Laborer Agreement and the Horizontal Directional Drilling (HDD) Agreement does not perform any civil engineering or land surveying work and that the work does not include any above ground imaging or mapping. i.e. survey work.
