## WORKSHOP ON WORKFORCE NEEDS FOR LARGE-SCALE SOLAR PROJECTS

---

– SAVE THE DATE –  
SEPTEMBER 15, 2010 – 12:30 PM  
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY  
BUILDING  
1001 I STREET (CORNER OF 10<sup>TH</sup> AND I STREETS)  
SACRAMENTO, CALIFORNIA

The **Governor's Office**, with the **California Public Utilities Commission**, the **California Workforce Investment Board**, the **California Energy Commission**, and the **California Department of Industrial Relations**, is sponsoring a public forum designed to identify workforce and training needs to construct large-scale solar thermal and photovoltaic projects in California beginning this year.

Representatives from several solar technology ventures will present information about recent and upcoming projects and discuss issues of importance to the industry. The **Center for Energy Efficiency and Renewable Technologies (CEERT)**, the **Kern Community College District** and the **Workforce Investment Board** will also share their perspectives on workforce demand and needs. Contractors and contractor organizations in this industry are encouraged to attend. There will be opportunity for public comment following the presentations.

More information about the workshop, including a detailed agenda, will be provided at: <http://gov.ca.gov/home/solar-workshop>.
