February 22, 2010

**NOTICE REGARDING ADVISORY SCOPE OF WORK FOR
THE SOUTHERN CALIFORNIA PLUMBERS'
GENERAL PREVAILING WAGE DETERMINATION**

The California Labor Code requires the Director of the Department of Industrial Relations to determine the prevailing rate of per diem wages for all workers employed upon public works projects. The Division of Labor Statistics and Research ("DLSR") undertook an investigation in 2009 to determine the prevailing wage rates for the **installation of solar and photovoltaic systems in Los Angeles, San Diego and Imperial Counties**. The results of the questionnaire have been compiled and based on them the minimum rate of pay for the work in question is -- **Electricians: Inside Wiremen** for the LOS-2009-2, SDI-2009-2, and IMP-2009-2 General Prevailing Wage Determinations.

The type of work listed below, as identified in the Plumbers 2006-2011 Master Labor Agreement for the Plumbing and Piping Industry of Southern California, between Southern California Pipe Trades District Council No.16 of the United Association and California Plumbing and Mechanical Contractors Association, were not published or recognized for the **Los Angeles, San Diego, and Imperial Counties** by the Department of Industrial Relations starting with the **August 22, 2009** issuance of the Southern California Plumbers' general determination, **LOS-2009-2, SDI-2009-2 and IMP-2009-2** and continuing with any subsequent Southern California Plumbers' general determinations until superseded by the Director. The rates associated with this unrecognized type of work (solar systems; all solar systems and components thereof) **SHALL NOT** be applied or used on public works projects for the associated type of work.
