

Stakeholder's Meeting
Final Fee Increase Discussion

Where: 1515 Clay Street, Oakland, CA.
13th Floor Training Room

When: May 11, 2010, 1:00PM

The Division of Occupational Safety and Health (DOSH) is proposing to adopt regulations that will increase the fee charged for elevator inspections.

Because the law requires elevator fee regulations to be adopted by the emergency rulemaking process, which means that the formal rulemaking process with a public hearing cannot be used, DOSH will hold a meeting at which we will explain the new fee structure and provide those who attend an opportunity to ask questions and comment in the same manner as would occur if we were holding a rulemaking hearing.

Please see the text of the proposed regulations accompanying this notice.

We look forward to seeing you there.

Len Welsh, Chief

Debra Tudor, Principal Engineer

Karen Belcher, Special Projects Coordinator
