

To: Interested parties for prevention of occupational heat illness

Subject: Cal/OSHA advisory meeting on heat illness prevention in indoor workplaces

A public advisory meeting has been scheduled to open the discussion of the need for, and possible provisions of, a regulation to address the risk of occupational heat illness in indoor workplaces in California.

This meeting is a continuation of the discussion of heat illness which led to promulgation earlier this year of a permanent regulation to address risk of heat illness in outdoor workplaces (Title 8, California Code of Regulations, Section 3395).

Details of the meeting are as follows:

**Thursday October 26, 2006
DIR Training Room 1304, 13th floor
Elihu Harris State Building
1515 Clay Street
Oakland, CA
Start time 10 a.m.**

With this meeting being only the initial exploration of the topic, if one is developed an agenda with specific topics will be provided at the time of the meeting. Please contact me if you wish to suggest a specific topic for discussion.

If there are questions about this meeting please contact me. You can also contact Amalia Neidhardt, Senior Industrial Hygienist, at (916) 574-1768

We look forward to your participation in this meeting.

Sincerely,

Bob Barish
