Dear [Provider Name],

MAXIMUS Federal Services has completed the Independent Bill Review (“IBR”) of the above workers’ compensation case. Provider had consolidated two dates of service 12/3/2013 and 1/27/2014 for case CB14-0001144 and only date of service 1/27/2014 was reviewed. This letter provides you with the IBR Final Determination and explains how the determination was made for date of service 12/3/2013.

**Final Determination: OVERTURN.** MAXIMUS Federal Services has determined that additional reimbursement is warranted. The Claims Administrator’s determination is reversed and the Claim Administrator owes the Provider additional reimbursement of $96.42 for G0431 on date of service 12/3/2013. A detailed explanation of the decision is provided later in this letter.

The Claim Administrator is required to reimburse the Provider a total of $96.42 within 45 days of the date on this letter per section 4603.2 (2a) of the California Labor Code. The determination of MAXIMUS Federal Services and its expert reviewer is deemed to be the Final Determination of the Administrative Director of the Division of Workers’ Compensation. This determination is binding on all parties. In certain limited circumstances, you can appeal the Final Determination. Appeals must be filed with the Workers’ Compensation Appeals Board within 20 days from the date of this letter. For more information on appealing the final determination, please see California Labor Code Section 4603.6(f).

Sincerely,

Paul Manchester, M.D., M.P.H.
Medical Director

cc: [Employee Name]
DOCUMENTS REVIEWED
Pertinent documents reviewed to reach the determination:

- The Independent Bill Review Application
- The original billing itemization
- Supporting documents submitted with the original billing
- Explanation of Review in response to the original bill
- Request for Second Bill Review and documentation
- Supporting documents submitted with the request for second review
- The final explanation of the second review
- Official Medical Fee Schedule
- Negotiated contracted rates:
- National Correct Coding Initiatives
- Other: OMFS Clinical Diagnostic Laboratory Fee Schedule 2014

HOW THE IBR FINAL DETERMINATION WAS MADE
MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING
Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Provider is dissatisfied with reimbursement of G0431
- Claims Administrator reimbursed $22.62 indicating on the Explanation of Review “Drug Screen not Chromatographic”
- Pursuant to Labor Code section 5307.1(g) (2), the Administrative Director of the Division of Workers’ Compensation orders that the pathology and clinical laboratory fee schedule portion of the Official Medical Fee Schedule (OMFS) contained in title 8, California Code of Regulations, section 9789.50, has been adjusted to conform to the changes to the Medicare payment system that were adopted by the Centers for Medicare & Medicaid Services (CMS) for calendar year 2013. Effective for services rendered on or after January 1, 2013, the maximum reasonable fees for pathology and laboratory services shall not exceed 120% of the applicable California fees set forth in the calendar year 2012 Clinical Laboratory Fee Schedule. Based on the adoption of the CMS payment system, CMS coding guidelines and fee schedule were referenced during the review of this Independent Bill Review (IBR) case.
- The toxicology results submitted report a quantitative measure of each drug screened. Upon review of Centers for Medicare & Medicaid Services (CMS) guidelines, HCPCS code G0434 is utilized to report urine drug screening performed by a test that is CLIA waived or moderate complexity test. Due to the complexity of the toxicology test performed, the levels tracked and results obtained, the billed services shall be paid in
accordance with HCPCS code G0431. The HCPCS code G0431 is reported with only one unit of service regardless of the number of drugs screened. The testing described by G0431 includes all CLIA high complexity urine drug screen testing as well as any less complex urine drug screen testing performed at the same patient encounter. The description of HCPCS code G0431 is "Drug screen, qualitative; multiple drug classes by high complexity test method (e.g. immunoassay, enzyme assay), per patient encounter." The drug screen services provided were of high complexity test method. The HCPCS code G0431 criteria has been met based on the documentation submitted by the Provider. Therefore, the code assignment G0434 and payment made by the Claims Administrator was not correct.

- Provider has already been reimbursed for the IBR application fee. Therefore, claims administrator is responsible for the remaining G0431 balance of $96.42

The table below describes the pertinent claim line information.

DETERMINATION OF ISSUE IN DISPUTE: Based on information reviewed, additional reimbursement of HCPCS code G0431 is warranted.
