HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Provider is dissatisfied with reimbursement of code 99202.
- Claims Administrator changed billed code 99202 to 99212 indicating on the Explanation of Review “Allowance based on F/U visit”
- Provider billed code 99202 and states “The bill accurately represents the level of service provided. Altering & down-coding our service is without merit. See report attached.”
- On review of narrative report submitted by Provider, documentation states “Injured worker is being seen at the request of the treating physician and has been authorized by the claims adjuster for employer. The patient is being evaluated with respect to the alleged work related injury to the right hip while working on June 10, 2014…”
- 99212 - Office or other outpatient visit for the evaluation and management of an established patient
- 99202 - Office or other outpatient visit for the evaluation and management of a new patient
- No evidence submitted that patient has been seen by this Provider and was a follow-up visit. Provider states the bill submitted accurately represents the level of service as a new patient exam.
- Based on information reviewed, additional reimbursement of code 99202 is warranted.
The table below describes the pertinent claim line information.
