DOCUMENTS REVIEWED

Pertinent documents reviewed to reach the determination:

- The Independent Bill Review Application
- The original billing itemization
- Supporting documents submitted with the original billing
- Explanation of Review in response to the original bill
- Request for Second Bill Review and documentation
- Supporting documents submitted with the request for second review

HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** The reimbursement of ML102-94.
- Provider was reimbursed for the ML102, and denied the additional 25% for the Modifier 94, Evaluation and medical-legal testimony performed by an Agreed Medical Evaluator.
- Modifier 94: Where this modifier is applicable, the value of the procedure is modified by multiplying the normal value by 1.25.
- The request for the Med-Legal report indicated the provider was the Orthopedic AME, and was requested as “Agreed” to re-evaluate the injured worker. Reimbursement warranted for the billed ML102-94.

The table below describes the pertinent claim line information.
