HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: The reimbursement of CPT 15570, 15004 and 29130
- Based on the explanation of review, the services were reimbursed according to the Outpatient Hospital and Ambulatory Surgery Center Fee Schedule.
- Reimbursement was based on 100% of the primary procedure 15770 (RW 21.1752), 50% of the secondary procedure 15004 (RW 3.5264) and 100% of procedure 29130 (RW 0.7563).
- CPT 29130 is not subject to multiple procedure reduction; therefore, reimbursement was 100% of the OMFS value.
- A PPO discount of 10% was applied.
- No additional reimbursement is recommended.
