HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- ISSUE IN DISPUTE: Provider is dissatisfied with reimbursement of codes 82145, 82205, 80154, 82520, 83840, 83992, 83925, 83925-59, 82145-59, 82055 and 82570
- Claims administrator reimbursed $34.69 indicating on the Explanation of Review “The charge exceeds the Official Medical Fee Schedule Allowance.”
- The Provider submitted a copy of the laboratory test results. The toxicology results submitted report a quantitative measure of each drug screened (Amphetamine, Barbiturates, Benzodiazepine, Cocaine Metabolites, Ecstasy, Methadone, Opiates, Oxycodone, Phencyclidine, Creatinine and Ethyl Alcohol). Due to the complexity of the toxicology test performed, the levels tracked and results obtained the billed procedure codes 82145, 82205, 80154, 82520, 83840, 83992, 83925, 83925-59, 82145-59 & 82570 shall be paid in accordance with HCPCS code G0431. The HCPCS code G0431 is reported with only one unit of service regardless of the number of drugs screened. The testing described by G0431 includes all CLIA high complexity urine drug screen testing as well as any less complex urine drug screen testing performed at the same patient encounter.
- The description of HCPCS code G0431 is "Drug screen, qualitative; multiple drug classes by high complexity test method (e.g. immunoassay, enzyme assay), per patient encounter.
- The drug screen services provided were of high complexity test method. The HCPCS code G0431 criteria has been met based on the documentation submitted by the Provider.
- The billed procedure code CPT 82055 is not considered part of the drug panel according to Title 8, CCR §9789.50 Laboratory Fee Schedule and should be paid separately. The description of CPT 82055 is "Alcohol any specimen except breath."
- PPO contract submitted shows negotiated fee amount $14.74 for 82055. The contract does not show a fee for HCPS G0431 and therefore will be reimbursed according to the 2014 Clinical Diagnostic Laboratory Fee Schedule.
- Based on information reviewed, additional reimbursement of HCPCS code G0431 and CPT 82055 is warranted.

The table below describes the pertinent claim line information.

**DETERMINATION OF ISSUE IN DISPUTE:** Additional reimbursement of codes G0431 and 82055 is recommended.
