HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Provider is dissatisfied with denial of codes 99214, 20550, J1030, J2001 and WC002
- Claims Administrator denied codes indicating “Payment is denied. This treatment was not authorized. No prior authorization provided for medications. Medications are to be submitted and filled through the appropriate pharmacy.”
- Documentation received for this review included Claims Administrator’s “Trigger point injection to the left shoulder/approved by UR nurse Approved Units 1” dated 07/02/2014.
- Also received for review included Explanation of Review from Claims Administrator showing payment to Provider in the amount $212.16 after PPO discount was applied. Both codes J1030 and J2001 are included in code 20550 and therefore, no additional reimbursement is recommended for these codes.
- Claims Administrator is responsible for the IBR application fee of $250.00 to be paid to Provider.
The table below describes the pertinent claim line information.

**DETERMINATION OF ISSUE IN DISPUTE:** Reimbursement of codes 99214, 20550 and WC002 is recommended. Claims Administrator has already sent payment and only IBR fee of $250.00 is now due to Provider.
