HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Provider is dissatisfied with denial of code 76942 – Ultrasonic guidance for needle placement (eg, biopsy, aspiration, injection, and localization device), imaging supervision and interpretation, for services on 6/6/2014.
- The claims administrator denied code 76942 indicating on the Explanation of Review “No separate payment was made because the value of the service is included within the value of another service performed on the same day”
- Documentation submitted for this review included the provider’s report of procedure performed with the assistance of ultrasonic guidance required for needle placement, a print out with two dark photos labeled ‘L Knee’ and Approved Hyalgan Injection x 3 for the Left Knee.
- CPT 76942 code description includes “interpretation” which is not found in the documentation submitted.
- Based on information reviewed, reimbursement for code 76942 is not warranted.
The table below describes the pertinent claim line information.
