DOCUMENTS REVIEWED

Pertinent documents reviewed to reach the determination:

- The Independent Bill Review Application
- The original billing itemization
- Supporting documents submitted with the original billing
- Explanation of Review in response to the original bill
- Request for Second Bill Review and documentation
- Supporting documents submitted with the request for second review
- The final explanation of the second review
- Official Medical Fee Schedule

HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Provider is dissatisfied with reimbursement of code 82486 x 17
- Claims administrator reimbursed $59.12 indicating on the Explanation of Review “The Medically Unlikely Edits (MUE) from CMS has been applied to this procedure code” This denial is incorrect as these are lab charges not physician charges.
- The Provider submitted laboratory results for the CPT code 82486 documenting test results for the following drug categories: Narcotics/Analgesics; Opiates; Oxycodone; Methadone; Benzodiazepines; Barbiturates; Amphetamines; Tricyclic/Antidepressants; Antidepressants; Neuropathic; and Sedatives/Hypnotics.
- Chromatography is high complexity testing with qualitative test results. Documentation submitted does not show any qualitative results, only ‘None Detected’.
- Documentation submitted does not substantiate testing of high complexity and therefore, no further reimbursement is warranted for code 82486.
The table below describes the pertinent claim line information.

**DETERMINATION OF ISSUE IN DISPUTE:** Additional reimbursement of code 82486 is not recommended.
