HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider is dissatisfied with reimbursement of Code 97799-86 x 29 units, for date of service 11/17/2014 – 11/21/2014.
- The Claims Administrator reimbursed the Provider $5546.25 indicating on the Explanation of Review “The Official Medical Fee Schedule does not list this code. An allowance has been made for a comparable service.”
- Modifier -86: OMFS Modifier is used when prior authorization was received for services that exceed OMFS ground rules.
- Initial Authorization Requested 10/09/2014 reflects Provider’s Usual and Customary fee as $225.00/hour for 160 hours.
- Authorized FRP for 160 hours by Claims Administrator dated 11/5/2014 was also submitted for this review showing services were approved and “The request for treatment has been determined to be appropriate at this stage of treatment. Authorization has been provided for the above treatment recommendation”
- OMFS allows for Unlisted Procedure Codes to be reimbursed as By Report.
- §9789.12.4 (c): In determining the value of a By Report procedure, consideration may be given to the value assigned to a comparable procedure or analogous code. The comparable procedure or analogous code should reflect similar amount of resources, such as practice expense, time, complexity, expertise, etc. as required for the procedure performed.
• There is no allowance or comparable code listed under the OMFS for service billed with procedure code 97799 or, more specifically, a Functional Restoration Program; a CPT Code has yet to be formulated for this comprehensive program. As such, a contractual agreement or the OMFS will dictate the level of reimbursement.
• PPO Contractual Agreement indicates lesser of 95% of billed charges.
• Based on documentation and guidelines reviewed, additional reimbursement is warranted for 97799-86.

The table below describes the pertinent claim line information.

DETERMINATION OF ISSUE IN DISPUTE: Additional reimbursement of 97799 - 86 is recommended.
