- Request for Second Bill Review and documentation
- Supporting documents submitted with the request for second review

HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- Claims Administrator reimbursed $2416.45 indicating on the Explanation of Review “This charge was adjusted to comply with the rate and rules of the contract indicated.”
- A PPO contract was not submitted for review and the Explanation of Review shows a discount was applied to the reimbursement which is inappropriate as the Provider submitted billed charges which already applied procedure reductions.
- Billed codes were adjusted to show a 25% increase and then split in half for procedures as co-surgeons and then split in half again for the multiple procedure reductions. Except for CPT codes that are list separately and therefore are reimbursed at 100% less the co-surgeon discount.
- Based on information reviewed, additional reimbursement is warranted for codes 63081-62, 63082-62, 22554-62, 22845-62 and 22851-62
The table below describes the pertinent claim line information.

**DETERMINATION OF ISSUE IN DISPUTE:** Based on information reviewed, additional reimbursement of codes 63081-62, 63082-62, 22554-62, 22845-62 and 22851-62 is warranted.
