HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE: Reimbursement of HCPCS G0260-L.T.**
- Provider billed the disputed CPT codes on a UB04, bill type 831 for date of service 10/02/2014.
- Claims Administrator reimbursement rational: “Service not paid under outpatient facility fee schedule.”
- Based on the provider type, the reimbursement for services is calculated on the Centers for Medicare and Medicaid Services (CMS) Outpatient Prospective Payment System (OPPS). Procedures are assigned APC weights and "Proposed Payment Status Indicators." The surgical HCPCS code G0260 has an assigned indicator of "T". The "T" indicator definition is "Significant procedure, multiple procedure reduction applies" and qualifies for separate APC payment.
- UB-04 reflects one line item billed as G0260.
- The Operative Report documented “left sacroiliac joint injection.”
- Based on the aforementioned documentation and guidelines, reimbursement is indicated for G0260.

The table below describes the pertinent claim line information.
