Analysis and Findings:

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE: Provider dissatisfied with reimbursement of code G0431.**
  - The Provider billed HCPCS code G0431 for date of service 09/11/2013. Provider was reimbursed $10.85 and is seeking additional reimbursement of $50.94.
  - The Provider billed HCPCS code G0431 for $550.00.
  - Letter received from Claims Administrator states HCPCS code G0431 was processed at “$119.94 per Official Medical Fee Schedule (OMFS). The bill then crossed the bridge for re-pricing per the provider’s contract, and the PPO Allowed amount was $10.85, an additional reduction of $109.09.”
  - Provider submitted a page of the PPO Contract agreement which states: “Workers’ Compensation: Except for practices which have opted-out or executed separate workers’ compensation contracts, services and supplies provided to Members for compensable worker’s compensation injuries or illnesses shall be reimbursed at the lesser of the PPO Fee Schedule or the California Division of Workers’ Compensation Official Medical Fee Schedule (“OMFS”).”
  - Provider also submitted pricing from the online PPO Contract dated 03/03/2014 for HCPCS code G0431 charge amount $550.00 and PPO Maximum Allowable $61.79. It also included pricing for HCPCS code G0434 charge amount $550.00 and PPO Maximum Allowable $11.26.
  - Other documentation reviewed included Urine Drug Testing Report, Request for Second Review which states “This medical office analyzes urine for drug testing, utilizing an analyzer that uses an enzyme multiple immunoassay technique.”
  - Results of the urine drug screen clearly indicate a computerized analysis was performed.
  - Submitted Toxicology results report a quantitative measure of each drug screened.
  - Due to the complexity of the toxicology test performed, the levels tracked and results obtained the laboratory services shall be paid in accordance with HCPCS code G0431.
  - Upon review of Centers for Medicare & Medicaid Services (CMS) guidelines, HCPCS code G0434 is utilized to report urine drug screening performed by a test that is CLIA waived or moderate complexity test. The HCPCS code G0431 is reported with only one unit of service regardless of the number of drugs screened. The testing described by G0431 includes all CLIA high complexity urine drug screen testing as well as any less complex urine drug screen testing performed at the same patient encounter.
  - Explanation of Review (EOR) reflects payment based on processing HCPCS code G0431 as HCPCS code G0434.
  - PPO listed allowance for G0431 ($61.79) is less than OMFS ($119.94). Therefore, recommended reimbursement based on PPO listed allowance for G0431 (lesser of the two fee schedules).
• DETERMINATION OF ISSUE IN DISPUTE: Based on CMS’ guidelines of HCPCS code G0431 and the Urine Drug Testing Report, HCPCS code G0431 was the correct billed HCPCS code. According to the pricing on HCPCS code G0431 from the PPO Contract received, an additional reimbursement of $50.94 is to be made to the Provider pursuant to the Official Medical Fee Schedule.
