HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- ISSUE IN DISPUTE: Lower than expected reimbursement of CPT code 22852.
- Based on review of the operative report spinal instrumentation was removed.
- Based on review of the OMFS fee schedule there is no indicator that the multiple surgery reduction does not apply. Therefore code 22852 should be allowed at 50% of the allowable amount.
The table below describes the pertinent claim line information.

**DETERMINATION OF ISSUE IN DISPUTE:** Reimbursement of code 22852 to be increased by $109.18 to be reimbursed at $537.59.
