ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE: Provider dissatisfied with reimbursement of code 82486**
  - The Provider billed CPT code 82486 x 40 units for date of service 11/13/2013. Provider was reimbursed $141.78 and is seeking additional reimbursement of $1130.44.
  - Claims Administrator bundled the billed procedure code 82486 into HCPCS G0431 indicating the following: “The Official Medical Fee Schedule does not list this code. An allowance has been made for a comparable service. Charge for a “separate procedure” that does not meet the criteria for payment. See the OMFS General Instructions for Separate Procedures rule.”
  - Provider submitted laboratory results for the CPT code documenting qualitative test results for the following drug categories: Narcotics/Analgesics 9 chemicals, Opiates 4 chemicals, Oxycodone 2 chemicals, Methadone 1 chemical, Benzodiazepines 11 chemicals, Barbiturates 1 chemical, Amphetamines 1 chemical, Tricyclic Antidepressants 3 chemicals, Antidepressants 5 chemicals, Neuropathic 2 chemicals and Sedatives/Hypnotics 2 chemicals.
  - Provider billed laboratory services on a CMS-1500 form with CPT 82486 x 40 and 80102 x 2 along with ICD-9 836.1; Tear of lateral cartilage or meniscus of knee, current.
  - No documents have been submitted to support the necessity for CPT 82486 x 40 or 80102 x 2. Only CMS-1500 form and two page lab results of the aforementioned chemicals can be taken into consideration during this review.
  - The Provider conducted drug screening tests utilizing the Chromatography method. The HCPCS code G0431 can be used for any method. The HCPCS code G0431 is reported with only one unit of service regardless of the number of drugs screened. The testing described by G0431 includes all CLIA high complexity urine drug screen testing as well as any less complex urine drug screen testing performed at the same patient encounter.
  - HCPCS G0431: Drug screen qualitative; multiple drug classes by high complexity test method (e.g. immunoassay, enzyme assay), per patient encounter.
  - Separate test results or report for the drug confirmation code 80102 x 2 were not submitted as part of the documentation. Therefore, additional reimbursement for the billed procedure code 80102 is not recommended.
  - **DETERMINATION OF ISSUE IN DISPUTE: Based on the documentation submitted, the code assignment and reimbursement of HCPCS G0431, the Claims Administrator was correct. No additional reimbursement is recommended for CPT 82486 or 80102. There is no additional reimbursement warranted for the Official Medical Fee Schedule codes 82486 (G0431).**
