INDEPENDENT BILLING REVIEW FINAL DETERMINATION

October 24, 2014

Dear [Redacted]

MAXIMUS Federal Services has completed the Independent Bill Review (“IBR”) of the above workers’ compensation case. This letter provides you with the IBR Final Determination and explains how the determination was made.

IBR Case Assigned: 06/27/2014

Final Determination: UPHOLD. MAXIMUS Federal Services has determined that no additional reimbursement is warranted. The Claims Administrator’s determination is upheld and the Claim Administrator does not owe the Provider additional reimbursement. A detailed explanation of the decision is provided later in this letter.

The determination of MAXIMUS Federal Services and its expert reviewer is deemed to be the Final Determination of the Administrative Director of the Division of Workers’ Compensation. This determination is binding on all parties. In certain limited circumstances, you can appeal the Final Determination. Appeals must be filed with the Workers’ Compensation Appeals Board within 30 days from the date of this letter. For more information on appealing the final determination, please see California Labor Code Section 4610.6(h).

Sincerely,

[Redacted]

Chief Coding Reviewer

cc: [Redacted]
DOCUMENTS REVIEWED

Pertinent documents reviewed to reach the determination:

- The Independent Bill Review Application
- The original billing itemization
- Supporting documents submitted with the original billing
- Explanation of Review in response to the original bill
- Request for Second Bill Review and documentation
- Supporting documents submitted with the request for second review
- The final explanation of the second review
- Med-Legal Official Medical Fee Schedule
- National Correct Coding Initiatives

HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider disputing reimbursement for ML104-95. Claims Administrator Reimbursed $937.50, Provider submitted $3,125.00. Provider is seeking full remuneration for services rendered.
- The Claims Administrator down-coded the billed ML104-95 to ML103 with the following explanation: “The documentation does not support the level of service billed. Reimbursement was made for a code that is supported by the documentation submitted with the billing.”
- The Provider, an Orthopedic Specialist, was requested by Legal Parties in the matter of (Injured Worker) v. (Employer/Claims Administrator) to perform a medical evaluation and render a medical opinion on the Injured Worker. The request is dated December 27, 2013.
- On January 14, 2014 the injured Worker was evaluated by The Provider as requested.
- The provided documentation entitled “Qualified Medical Evaluation” was reviewed and compared to the guidelines as dictated in the Med-Legal OMFS. The OMFS determines the level of a Medical Legal Evaluation by Complexity Factors. The following complexity factors were abstracted from the QME Report:
  1. Four or more hours spent on any combination of two complexity factors (1)-(3), which shall count as two complexity factors. Any complexity factor in (1), (2), or (3) used to make this combination shall not also be used as the third required complexity factor.
- **Criteria Met** – The Provider Reports: “65 Minutes face to face time,” and “8 hour(s) of record review time.”
2. Addressing the issue of medical causation upon written request of the party or parties requesting the report, or if a bona fide issue of medical causation is discovered in the evaluation.
   - **Criteria Met** - Page 2, request #6, of the request for QME states, “Assuming that abnormalities are present, can it be stated with a reasonable medical probability that these abnormalities were caused by (Injured Worker’s) August 6, 2012 fall while working.”
   - **Criteria Met** - Provider addresses this question on page 26, paragraph 1 of the QME report under the heading, “Causation and Apportionment.”

3. Addressing the issue of Apportionment under the following circumstances: 1) when determination of this issue requires the physician to evaluate three or more injuries or pathologies. 2) three or more injuries to the same body system or body region as delineated in the Table of Contents of Guides to the Evaluation of Permanent Impairment (Fifth Edition). 3) two or more or more injuries involving two or more body systems or body regions. upon written request of the party
   - **Criteria Not Met**; QME, page 26, “Apportionment will be addressed, when I have the opportunity to review…”

OMFS ML 104 Criteria states “4 of More Complexity Factors.” Only 3 Complexity Factors were abstracted from provided QME Report.

Based on the aforementioned guidelines when compared to the documentation provided, the Provider has met the Criteria for OMFS ML103: “Complex Comprehensive Medical-Legal Evaluation. Includes evaluations which require three of the complexity factors.”

**OMFS ML 103 = $937.50**

**DETERMINATION OF ISSUE IN DISPUTE:** Reimbursement of code ML104 is not warranted based on the aforementioned guidelines when compared to the documentation provided. Documentation supports Claims Administrators reimbursement for ML103.
