**HOW THE IBR FINAL DETERMINATION WAS MADE**

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

**ANALYSIS AND FINDING**

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Reimbursement for CPT codes 64493 and 64494 were less than expected by the Provider.
- Both services have status indicator of “T” indicating that the service with the highest reimbursement (64493) is paid at 100% of the allowed amount and all others (64494) are paid at 50% of the allowed amount.
- Provider’s conversion factor = 96.85. (Alameda County)
- Ambulatory surgical center reimbursement reimbursed at 82% of the full allowed amount.
- Based on the OPPS reimbursement set based on the following calculation:
  
  $\text{64493} = 7.9333 \times 96.85 \times 0.82 = 630.04$
  
  $\text{64494} = 2.5607 \times 96.85 \times 0.82 \times 0.5 = 101.68$
The table below describes the pertinent claim line information.

**DETERMINATION OF ISSUE IN DISPUTE:** Reimbursement of codes 64493 and 64494 was not paid appropriately. Additional $123.91 to be reimbursed to the provider.
