HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Provider is dissatisfied with denial of codes 64702 and 35761.
- Claims Administrator denied codes and indicated on the Explanation of Review “These services were submitted on the incorrect billing form. Please resubmit the bill on the correct form.”
- Provider billed codes 64702 (Neuroplasty; digital, 1 or both, same digit) and 35761 (Exploration (not followed by surgical repair), with or without lysis of artery; other vessels) on a CMS 1500 for Physician Services.
- Based on review of the operative report, provider performed a dissection of the right index finger and removal of foreign body.
- Documentation reviewed included Case Summary Report from Utilization Review approving “Exploration right index finger with removal foreign body 20525, 20103”
- Based on information reviewed, Claims Administrator was incorrect to deny claim. Therefore, reimbursement of codes 64702 and 35761 is warranted.
The table below describes the pertinent claim line information.
