HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Provider seeking remuneration for 29889 surgical procedure performed on Injured Worker 04/23/2014.
- Claims Administrator denied 29888 Surgical arthroscopy of knee with repair of posterior cruciate ligament stating “service exceeded the pre-authorized approval.”
- Authorization 03/26/2014 reflects “left knee allograft reconstruction of the left anterior cruciate ligament w/lateral and medical menisceclomies versus meniscal repair.”
- Operative Report reflects “posterior” ligament.
- IBR unable to recommend reimbursement for unauthorized procedure.
