HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Provider is dissatisfied with denial of HCPCS L1832.
- Pursuant to Labor Code section 5307.1(g)(2), the Administrative Director of the Division of Workers’ Compensation orders that Title 8, California Code of Regulations, sections 9789.30 and 9789.31, pertaining to Hospital Outpatient Departments and Ambulatory Surgical Centers Fee Schedule in the Official Medical Fee Schedule, is amended to conform to CMS’ hospital outpatient prospective payment system (OPPS). The Administrative Director incorporates by reference, the Centers for Medicare and Medicaid Services’ (CMS) Hospital Outpatient Prospective Payment System (OPPS) certain addenda published in the Federal Register notices announcing revisions in the Medicare payment rates. The adopted payment system addenda by date of service are found in the Title 8, California Code of Regulations, and Section 9789.39(b). Based on the adoption of the CMS hospital outpatient prospective payment system (OPPS), CMS coding guidelines and the hospital outpatient prospective payment system (OPPS) were referenced during the review of this Independent Bill Review (IBR) case.
- Based on the provider type, the reimbursement for services is calculated on the Centers for Medicare and Medicaid Services (CMS) Outpatient Prospective Payment System (OPPS). Procedures are assigned APC weights and “Proposed Payment Status Indicators.” The HCPCS code L1832 has an assigned status indicator of “A”. The “A” indicator definition is
“Not paid under OPPS. Paid by fiscal intermediaries/MACs under a fee schedule or payment system other than OPPS.”

- Per the OMFS Outpatient Hospital Ambulatory Surgery Center Fee schedule, the maximum allowable fee for durable medical equipment, prosthetics and orthotics shall be determined according to Section 9789.60.” The HCPCS L1832 is an Orthotic and is reimbursable when billed by an Outpatient Hospital or Ambulatory Surgery Center (ASC) under the OMFS DMEPOS fee schedule per Title 8, CCR, section 9789.32(c)(6). The allowance for supplies and materials other than dispensed durable medical equipment not listed on the Medicare DMEPOS fee schedule shall be reimbursed documented paid cost plus 20% (not to exceed cost plus $15.00). The Provider submitted an invoice indicating the documented paid cost of L1832 orthotic was $815.63. The billed HCPCS L1832 is not on the Medicare DMEPOS fee schedule; therefore, the recommended reimbursement for the billed orthotic (L1832) is cost plus 20% (not to exceed cost plus $15.00).

The table below describes the pertinent claim line information.
