HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Denial of CPT code 64493-LT.
- Based on the NCCI edits 64493 can be coded bilaterally.
- Based on review of the operative report 64493 was performed bilaterally.
- Based on the CPT code description and CPT Assistant, allow bilateral reimbursement for CPT code 64493. Modifier 50 would have been the preferred modifier to append to code 64493 but modifier RT and LT also describe the same service and the same reimbursement. Application of modifier 50 would allow for the MUE edit to not identify a suspect number of units billed. The Provider should adjust future billing to reflect this and append modifier 50 on one line of service to be consistent with Medicare Claims Processing rules.
The table below describes the pertinent claim line information.
