DOCUMENTS REVIEWED

Pertinent documents reviewed to reach the determination:

- The Independent Bill Review Application
- The original billing itemization
- Supporting documents submitted with the original billing
- Explanation of Review in response to the original bill
- Request for Second Bill Review and documentation
- Supporting documents submitted with the request for second review

HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider seeking full remuneration for 97670 Functional Capacity services performed on Injured Worker 04/11/2013.
- Partial 1st EOR received for IBR, Provider was reimbursed $62.50 of $2,000.00 billed charges with the following explanation, “The frequency of this procedure exceeds the time limitation guideline.”
- OMFS does not yet have a limitation as to the “frequency” of Functional Capacity testing. These financial limitations are typically set by the Claims Administrator at a pre-negotiated rate.
- 10/03/2014 Provider received payment allowance of $1,937.50 from Claims Administrator. Remaining Balance based on “Recommended Allowance based on negotiated rate.”
- IBR fee due Provider.
