HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE**: Reimbursement for CPT code 29823 less than expected by the Provider.
- No suspect code sets based on review of NCCI edits.
- Reimbursement is based on the Outpatient Prospective Payment System. This methodology of reimbursement is not based on billed amount and can be set higher than the billed amount. In this case the billed charges for the entire claim were $30004.83.
- Of the line item services that reimbursement is based on, CPT code has the highest reimbursement therefore should be reimbursed at 100% of the allowed amount.
- Reimbursement is calculated as follows:

\[
29823 = \text{Adjusted CF} \times 80.45 \times \text{APC RW} 54.4111 \times \text{WC Multi.} 1.22 = 5340.40
\]
The table below describes the pertinent claim line information.

**DETERMINATION OF ISSUE IN DISPUTE:** Additional reimbursement of $2116.40 is due to the Provider for CPT code 29823.
