HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider is dissatisfied with denial of code 96101-59
- Claims Administrator denied code indicating on the Explanation of Review “Per NCCI, the procedure code is denied, based on standard of medical, surgical practice. Procedure included in 99205”
- Although a pair edit does exist between billed code 99205 and 96101, Status Indicator column shows ‘1’ which states that if an approved modifier is appended to the column ‘2’ code, and documentation is submitted to support billed code, then the edit may be overridden.
- Provider submitted 96101 with modifier -59 which is an approved modifier.
- Page 9 of the Provider’s Initial Psychological Consultation report documents tests administered on date of service 10/7/2014.
- Based on information reviewed, reimbursement of 96101-59 is warranted.
- Claims Administrator submitted an EOR dated 8/26/15 showing payment in the amount of \$390.00 was submitted to Provider after this dispute was filed.
- Claims Administrator is responsible for the IBR application fee of \$195.00.

The table below describes the pertinent claim line information.
