HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider is dissatisfied with denial of CPT 99199
- Claims Administrator denied code indicating on the Explanation of Review “Upon re-evaluation of your bill it has been determined that no payment is due. PTP’s medical record review is included in E/M”
- Provider submitted dated letter November 11, 2014 from applicant’s attorney which requests “Would you please review his chart and note any relationship...please provide a short report noting same and the reasons for that opinion”
- As of January 1, 2014, record review is no longer a separately reimbursable service. Record review is a bundled code: Payment for covered services are always bundled into payment for other services not specified
- Based on information reviewed, reimbursement of CPT 99199 is not warranted.

The table below describes the pertinent claim line information.
