HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider is dissatisfied with reimbursement of HCPCS code G0431
- Claims administrator reimbursed \$20.24 indicating on the Explanation of Review “The Official Medical Fee Schedule does not list this code. An allowance has been made for a comparable service.”
- The Provider submitted laboratory results documenting qualitative test results for the following drug categories: Amphetamines, Barbiturates, Benzodiazepines, Cocaine, Methadone, Opiates, Oxycodone, Ecstasy and Phencyclidine. For Chemistry panel Ethyl Alcohol and Creatinine. The Provider conducted drug screening tests utilizing the Chromatography method. The HCPCS code G0431 can be used for any method. The HCPCS code G0431 is reported with only one unit of service regardless of the number of drugs screened. The testing described by G0431 includes all CLIA high complexity urine drug screen testing as well as any less complex urine drug screen testing performed at the same patient encounter. The description of HCPCS code G0431 is "Drug screen, qualitative; multiple drug classes by high complexity test method (e.g. immunoassay, enzyme assay), per patient encounter."
- The drug screen services provided were of high complexity test method. The HCPCS code G0431 criteria has been met based on the documentation submitted by the Provider. Therefore, the code assignment G0434 and payment made by the Claims Administrator was not correct.

- A 10% PPO discount is to be applied to reimbursement.
- Based on information reviewed, additional reimbursement of G0431 is warranted.

The table below describes the pertinent claim line information.
