Dated: 11/6/2013

[REDACTED]

[REDACTED]

Employee: [REDACTED]
Claim Number: [REDACTED]
Date of UR Decision: 7/29/2013
Date of Injury: 7/8/2011
IMR Application Received: 7/31/2013
MAXIMUS Case Number: CM13-0005062

- 1) MAXIMUS Federal Services, Inc. has determined the request for a knee brace **is medically necessary and appropriate.**

INDEPENDENT MEDICAL REVIEW DECISION AND RATIONALE

An application for Independent Medical Review was filed on 7/31/2013 disputing the Utilization Review Denial dated 7/29/2013. A Notice of Assignment and Request for Information was provided to the above parties on 8/14/2013. A decision has been made for each of the treatment and/or services that were in dispute:

- 1) MAXIMUS Federal Services, Inc. has determined the request for a knee brace is **medically necessary and appropriate.**

Medical Qualifications of the Expert Reviewer:

The independent Medical Doctor who made the decision has no affiliation with the employer, employee, providers or the claims administrator. The physician reviewer is Board Certified in Preventive Medicine and Occupational Medicine and is licensed to practice in California. He/she has been in active clinical practice for more than five years and is currently working at least 24 hours a week in active practice. The Expert Reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and treatments and/or services at issue.

Expert Reviewer Case Summary:

The applicant is a represented [REDACTED] employee who has filed a claim for knee pain reportedly associated with an industrial injury of July 8, 2011.

Thus far, employee has been treated with the following: Analgesic medications; transfer of care to and from various providers in various specialties; prior ACL reconstruction, and meniscal repair surgery; and apparent return to regular work.

A May 29, 2013, note suggests that the applicant was doing well until two weeks prior. The employee now reports 8/10 knee pain. The knee is swollen and feels unstable. The employee is working regular duty. Exhibited are well healed surgical scars, well-preserved range of motion, and 5-/5 strength. X-ray suggests that the ACL reconstruction hardware is in place. Recommendations are made for the applicant to use an off-the-shelf ACL brace. The employee has returned to regular work.

It is noted that the applicant works as a driver at Walgreens.

Documents Reviewed for Determination:

The following relevant documents received from the interested parties and the documents provided with the application were reviewed and considered. These documents included:

- Application of Independent Medical Review
- Utilization Review Determination
- Medical Records from Claims Administrator
- Medical Treatment Utilization Schedule (MTUS)

1) Regarding the request for a knee brace:

Section of the Medical Treatment Utilization Schedule Relied Upon by the Expert Reviewer to Make His/Her Decision

The Claims Administrator based its decision on the ODG, Knee Walking aids, which is not part of the MTUS.

The Expert Reviewer based his/her decision on the Knee Complaints Chapter (ACOEM Practice Guidelines, 2nd Edition (2004), chapter 13) Activity Alteration, page 339-340, which is part of the MTUS.

Rationale for the Decision:

As noted in the MTUS ACOEM guidelines a knee brace can be used for instability purposes, particularly for that associated with ACL tears. In this case, the employee has reportedly returned to work as a driver and is likely to be stressing the knee while carrying loads at work. Using a knee brace in this context is medically necessary and indicated here. **The request for a knee brace is medically necessary and appropriate.**

Effect of the Decision:

The determination of MAXIMUS Federal Services and its physician reviewer is deemed to be the final determination of the Administrative Director, Division of Workers' Compensation. With respect to the medical necessity of the treatment in dispute, this determination is binding on all parties.

In accordance with California Labor Code Section 4610.6(h), a determination of the administrative director may be reviewed only if a verified appeal is filed with the appeals board for hearing and served on all interested parties within 30 days of the date of mailing of the determination to the employee or the employer. The determination of the administrative director shall be presumed to be correct and shall be set aside only upon proof by clear and convincing evidence of one or more of the grounds for appeal listed in Labor Code Section 4610.6(h)(1) through (5).

Sincerely,

Paul Manchester, MD, MPH
Medical Director
