INDEPENDENT MEDICAL REVIEW DECISION AND RATIONALE

An application for Independent Medical Review was filed on 8/5/2013 disputing the Utilization Review Denial dated 7/22/2013. A Notice of Assignment and Request for Information was provided to the above parties on 9/3/2013. A decision has been made for each of the treatment and/or services that were in dispute:

- 1) MAXIMUS Federal Services, Inc. has determined the request for **Medrox Patch #30 is not medically necessary and appropriate.**

Medical Qualifications of the Expert Reviewer:

The independent Medical Doctor who made the decision has no affiliation with the employer, employee, providers or the claims administrator. The physician reviewer is Board Certified in Anesthesiology and Pain Management, has a subspecialty in Acupuncture and is licensed to practice in California. He/she has been in active clinical practice for more than five years and is currently working at least 24 hours a week in active practice. The Expert Reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and treatments and/or services at issue.

Expert Reviewer Case Summary:

A 39 year old female injured worker who sustained an injury and has been diagnosed with Lumbar Discopathy, Right Lateral Epicondylitis, and Right Carpal Tunnel Syndrome. Utilization Review performed on 7/24/13 evaluated clinical documentation. The most recent medical record available for my review is a note dated 7/30/13.

Documents Reviewed for Determination:

The following relevant documents received from the interested parties and the documents provided with the application were reviewed and considered. These documents included:

- Application of Independent Medical Review
- Utilization Review Determination
- Medical Records from employee/employee representative
- Medical Treatment Utilization Schedule (MTUS)

1) Regarding the request for Medrox Patch #30:

Section of the Medical Treatment Utilization Schedule Relied Upon by the Expert Reviewer to Make His/Her Decision

The Claims Administrator based its decision on the MTUS: Compounded Medications.

The Expert Reviewer based his/her decision on the Chronic Pain Medical Treatment Guidelines (2009), Topical Analgesics, pg 111, which is part of MTUS.

Rationale for the Decision:

MTUS states that menthol is not medically indicated. Medrox Patch contains menthol. MTUS states that any compounded product that contains at least one drug (or drug class) that is not recommended is not recommended. **The request for Medrox Patch #30 is not medically necessary and appropriate.**

Effect of the Decision:

The determination of MAXIMUS Federal Services and its physician reviewer is deemed to be the final determination of the Administrative Director, Division of Workers' Compensation. With respect to the medical necessity of the treatment in dispute, this determination is binding on all parties.

In accordance with California Labor Code Section 4610.6(h), a determination of the administrative director may be reviewed only if a verified appeal is filed with the appeals board for hearing and served on all interested parties within 30 days of the date of mailing of the determination to the employee or the employer. The determination of the administrative director shall be presumed to be correct and shall be set aside only upon proof by clear and convincing evidence of one or more of the grounds for appeal listed in Labor Code Section 4610.6(h)(1) through (5).

Sincerely,

Paul Manchester, MD, MPH
Medical Director
