HOW THE IMR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services sent the complete case file to an expert reviewer. He/she has no affiliation with the employer, employee, providers or the claims administrator. He/she has been in active clinical practice for more than five years and is currently working at least 24 hours a week in active practice. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/Service. He/she is familiar with governing laws and regulations, including the strength of evidence hierarchy that applies to Independent Medical Review determinations.

The Expert Reviewer has the following credentials:
State(s) of Licensure: California, Indiana, Oregon
Certification(s)/Specialty: Orthopedic Surgery

CLINICAL CASE SUMMARY

The expert reviewer developed the following clinical case summary based on a review of the case file, including all medical records:

The injured worker is a 61 year old female. There is left shoulder pain. The date of injury was 7/11/13. There was documentation of a subacromial steroid injection on 8/19/14 which gave relief for 3 days. On 5/21/15 the exam note noted night pain and pain with cross body adduction as well as over the anterolateral rotator cuff footprint. Restrictions in range of motion were noted. MRI of 4/11/15 showed left shoulder effusion and ACJ arthropathy.

IMR ISSUES, DECISIONS AND RATIONALES

The Final Determination was based on decisions for the disputed items/services set forth below:

Left shoulder manipulation under anesthesia (hypotensive technique), arthroscopy with partial resection of distal clavicle, partial anterolateral acromioplasty with resection of coracoacromian ligament, extensive debridement subacromial bursa and possible rotator cuff repair: Upheld

Claims Administrator guideline: Decision based on MTUS ACOEM Chapter 9 Shoulder Complaints Page(s): 211. Decision based on Non-MTUS Citation Official Disability Guidelines, Shoulder.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: CA MTUS/ACOEM is silent on the issue of surgery for adhesive capsulitis. Per ODG shoulder section, the clinical course of this condition is self-limiting. There is insufficient literature to support capsular distention, arthroscopic lysis of adhesions/capsular release or manipulation under anesthesia (MUA). The request is for a procedure not recommended by guidelines and is not medically necessary.

Associated surgical service: Left shoulder interscalene block under ultrasound guidance for post-op pain: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Associated surgical service: Assistant surgeon: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Pre-op evaluation with internal medicine: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Pre-op PA and lateral chest x-ray: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Pre-op PFT: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Pre-op EKG: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Pre-op labs, CBC: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Pre-op labs, Chem 12: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Pre-op labs PT, PTT: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Pre-op labs, Hemoglobin A1C: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Pre-op urinalysis: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Keflex 500mg #20: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Norco 5/325mg #60: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

Ultram 50mg #60: Upheld

Claims Administrator guideline: The Claims Administrator did not cite any medical evidence for its decision.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) shoulder.

Decision rationale: Since the primary procedure is not medically necessary, none of the associated services are medically necessary.
