HOW THE IMR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services sent the complete case file to an expert reviewer. He/she has no affiliation with the employer, employee, providers or the claims administrator. He/she has been in active clinical practice for more than five years and is currently working at least 24 hours a week in active practice. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/Service. He/she is familiar with governing laws and regulations, including the strength of evidence hierarchy that applies to Independent Medical Review determinations.

The Expert Reviewer has the following credentials:

State(s) of Licensure: California

Certification(s)/Specialty: Chiropractor, Oriental Medicine

CLINICAL CASE SUMMARY

The expert reviewer developed the following clinical case summary based on a review of the case file, including all medical records:

The injured worker is a 54 year old male, who sustained an industrial injury on July 26, 2012. He was diagnosed with lumbar degenerative disc disease and spondylosis. Treatment included physical therapy, anti-inflammatory drugs, muscle relaxants, pain medications and work restrictions. Currently, the injured worker complained of chronic low back pain. The treatment plan that was requested for authorization included Acupuncture to the lumbar spine.

IMR ISSUES, DECISIONS AND RATIONALES

The Final Determination was based on decisions for the disputed items/services set forth below:

Acupuncture 2 x wk x 6 wks lumbar spine: Upheld

Claims Administrator guideline: Decision based on MTUS Acupuncture Treatment Guidelines.

MAXIMUS guideline: Decision based on MTUS Acupuncture Treatment Guidelines.

Decision rationale: Patient has not had prior Acupuncture treatment. Provider requested initial trial of 2X6 acupuncture sessions which were non-certified by the utilization review. Per guidelines, 3-6 treatments are supported for initial course of Acupuncture with evidence of functional improvement prior to consideration of additional care. Requested visits exceed the

quantity of initial acupuncture visits supported by the cited guidelines. Additional visits may be rendered if the patient has documented objective functional improvement. MTUS- Definition 9792.20 (f) Functional improvement means either a clinically significant improvement in activities of daily living or a reduction in work restrictions as measured during the history and physical exam. Per guidelines and review of evidence, 2X6 Acupuncture visits are not medically necessary.
