California Division of Workers' Compensation posts annual audit report on its Web site

The Division of Workers' Compensation (DWC) has posted the 2007 DWC Audit Unit annual report on its Web site. The Audit Unit annual report provides information on how claims administrators audited by the DWC performed and includes a ranking report.

The 2007 Audit Unit annual report details the results of audits conducted in 2006 and includes the name of each insurer, self-insured employer and third-party administrator audited during that time. For each claims administrator audited, the report specifies the total number of files audited, the number of violations found by type and amount of compensation, interest and penalties payable and the amount collected for each violation. The report also includes a list ranking all claims administrators audited during the period according to their performance.

The Audit Unit report can be found at <http://www.dir.ca.gov/dwc/audit.html>.
